1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2, 7-9, 12-13, and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Kobayashi et al. Vertical circular tube-like protuberance 9 of Kobayashi et al is read as an "upright interior wall".

3. Claims 1-2 are further rejected under 35 U.S.C. 102(b) as being anticipated by Billeter et al. The recitations of "fuel" in claim 1 merely relate to intended use and are given no structural weight in an apparatus claim. Cylindrical orifice plate 210 of Billeter et al is read as a "upright interior wall".

4. Claims 9 and 28-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 9, line 7, "discharged" should be "discharge". In claim 28, line 8, "mean" should be --means--.

5. Claims 28-29 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Claims 3-6, 10-11, 14-21, 23-27, and 30-32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 33-34 are allowed.
